

HE ANIUM Straight Eyelets ES

Our standard straight eyelets **ES** are listed below. The outside diameter **D** identifies each part for easy reference. Custom parts with tailored OD, ID, or length are available. Additional standard and custom parts are available. Contact our **technical sales** department for assistance.

PART NUMBER	INSIDE DIAMETER		OVERALL LENGTH		OUTSIDE DIAMETER

PART NUMBERING: Our part numbering system allows quick-and-easy part selection using the functional outside diameter or width of the part. These dimensions are highlighted throughout this catalog for easy reference.

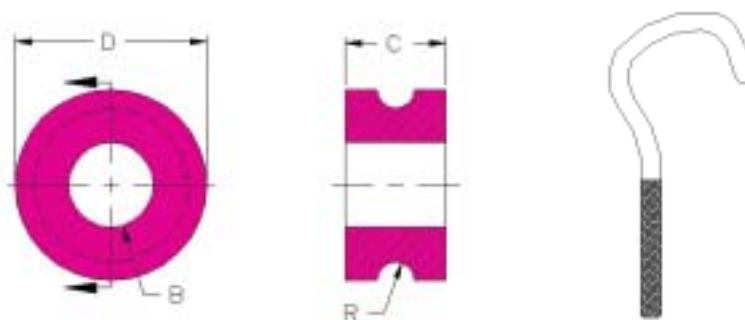

TOLERANCES: Standard tolerances on Heanium components are .010 inch or $\pm 1.5\%$, whichever is greater. Dimensions on parts can be held to tighter tolerances as required, utilizing diamond grinding and honing.

HEANIUM Grooved Eyelets **EG**

Our standard grooved eyelets **EG** are listed below. The outside diameter **D** identifies each part for easy reference. Most Heanium grooved eyelets can be provided with slots for self-threading. Custom parts with tailored OD, ID, or length are available. Additional standard and custom parts are available. Contact our **technical sales** department for assistance.

PART NUMBER	INSIDE DIAMETER		OVERALL LENGTH		OUTSIDE DIAMETER		GROOVE RADIUS	
	B		C		D

ADAPTABLE MOUNTING: Heanium parts can be assembled with various fittings and hardware. Mountings, shanks, casings, bushings, and bearings enable Heanium parts to be readily installed on machinery. In-house machining capabilities allow us to manufacture customized mounting holders for your special needs. Contact our **technical sales** department for assistance.

Standard finish (Ra) on all surfaces is 64 μ in. Polishing to 32 μ in (**P2 Polish**) or 16 μ in (**P1 Polish**) is available.
